**Answer:** A

**NO.3** Which of the following is a key consideration for implementing high availability in a hybrid IT solution?

- A. Data replication across on-premises and cloud environments
- B. Reduced energy consumption
- C. Choosing a single cloud provider
- D. Limiting the number of virtual machines

**Answer:** A

**NO.4** Which of the following is a key benefit of a hybrid IT architecture?

- A. Reduced security risks
- B. Increased scalability
- C. Simplified management
- D. Single vendor lock-in

**Answer:** B

**NO.5** What HPE tool can be used to manage workloads across multiple cloud environments in a hybrid IT architecture?

- A. HPE OneView
- B. HPE Synergy
- C. HPE OneSphere
- D. HPE GreenLake

**Answer:** C

**NO.6** Which of the following should be prioritized when managing the deployment of a hybrid IT solution for a customer?

- A. Aligning IT infrastructure with the customer's business needs and goals
- B. Focusing solely on reducing energy consumption
- C. Limiting the use of cloud resources

**D.** Restricting access to cloud-native applications

**Answer:** A

**NO.7** What is a key consideration when selecting storage solutions in a hybrid IT environment?

**A.** Distance between cloud providers

**B.** Scalability and data performance

**C.** The number of employees in the organization

**D.** Hardware vendor preference

**Answer:** B

**NO.8** Which HPE solution provides the capability to automate data backup and deduplication for compliance purposes?

**A.** HPE StoreOnce

**B.** HPE OneView

**C.** HPE GreenLake

**D.** HPE InfoSight

**Answer:** A

**NO.9** How does HPE InfoSight help optimize hybrid IT operations?

**A.** Predicts and prevents issues through AI-driven analytics

**B.** Provides cloud-native application development tools

**C.** Manages software licensing across multiple vendors

**D.** Monitors on-premises-only workloads

**Answer:** A

**NO.10** How does HPE OneView simplify resource management in a hybrid IT environment?

**A.** Centralizes monitoring and control of physical and virtual resources

**B.** Focuses only on on-premises resources

**C.** Manages cloud-native applications only

**D.** Provides data analytics for networking

**Answer:** A
